

Maker Membership Taster

Monday 5th October 6pm

A free online session to find out about my Maker Membership group and see if it's right for you

Maker Membership is for all makers who want to be inspired, creative, imaginative and make work with meaning. It includes:

- Online community
- Development resources
- Themes and ideas to inspire you
- Workbooks and reflection
- Feedback and support
- Group mentoring

Maker Membership is a place to learn from me about how I work and apply to your own making practice. It's about creating research-focussed work, to develop and refine your ideas, to grow your creative confidence and develop your own voice. I'll create project briefs, resources, ideas and techniques for you each month to explore and learn.

Anyone is welcome, as long as you have a making practice – professional and hobby makers are welcome. The membership is mostly textile makers and is probably best suited to those who work in stitch or other textile processes.

We also have an online creative retreat weekend in November, which is included in your membership fee
